Liquid Products

Item Codes : 1 = single gallon 2 = cases 3 = 5 gallon pail 4 = 15 gallon drum 5 = 55 gallon drum

** Indicates products available for liquid injection. Totes available upon request.*

Liquid Detergents :

Alka-Lite E* : An all-temperature, moderate pH degreasing detergent for removal of oil-based soils. 1, 2, 3, 4, 5

Citru-Kleen* : A citrus-based, water-soluble degreaser for use in all low-to-moderate temperatures, and in wetcleaning operations. 1, 2, 3, 4, 5

Collar & Cuff : Designed to be used directly on stubborn dirt on heavily soiled laundry, C&C can also be added when washing heavily soiled wash to loads to thoroughly remove soils at any temperature. 1, 2, 3, 4, 5

Dyna-Det* : A highly alkaline orthosilicate blend detergent builder, for the saponification of oily soils. 3, 4, 5

SoftSolv* : A wetside ink, grease and oil remover that is built with environmentally friendly detergents and, bio-based degreasers, and hydrocarbon alternatives. 1, 2, 3, 4, 5

Tri-Zyme!* : A neutral pH, low and moderate temperature, enzyme based deodorizing laundry detergent. 1, 2, 3, 4, 5

Wet-Clean, Plus! * : A neutral wetcleaning detergent with anti-shrinkage agents, dye transfer inhibitors, and natural sizing. 1, 2, 3, 4, 5

Wonder Wash! * : An economical neutral detergent for wet cleaning and general laundry use. 1, 2, 3, 4, 5

Liquid Bleaches :

Stain-Free* : A concentrated chlorine bleach. 3, 4, 5

Liquid Anti-Chlor* : A reducing agent that neutralizes chlorides (chlorine bleach) left in fabrics; reduces graying or yellowing of fabric. 3, 4

L.O.B.* : A color-safe oxygen bleach. 3, 4

L.O.B. Plus!* : A highly concentrated color-safe oxygen bleach. 4, 5

Liquid Sours & Softeners :

Liquid Rust Sour* : A fabric-safe sour that lowers fabric pH while it removes the yellow discoloration caused by iron or rust in the water supply or in the fabric. 3, 4, 5

Softex-C* : A static-controlling fabric softener and conditioner that leaves fabrics with a soft “hand”, elasticity, and a mild fresh scent. 1, 2, 3, 4, 5

Sour/Soft* : A sour with just a touch of **Softex-C** to not only lower the fabric’s pH, but gives fabrics elasticity for easier pressing while it brightens fabrics. 3, 4, 5

Specialty Liquid Products :

Chemsize* : A synthetic starch that works by not only penetrating natural fibers as does dry starch, but also clings to synthetic fibers without leaving a shine on darker colors. **Chemsize** adds body to fabrics where little or none could be added before. When a small amount is used with conventional instant dry starches, less dry starch is used, the fabric becomes more wrinkle resistant and is easier to finish. 1, 2, 3, 4, 5

The Final Rinse* : A laundry deodorizer designed to eliminate odors caused by mold and mildew. When added to the final rinse in a wash cycle, this product will keep the “sour” and other odors from forming in laundry that has been washed and kept wet overnight or longer, especially in a warm or hot environment. 1, 2, 3, 4, 5

Cross-Fire!* : A dual-action, malodor counteract designed to eliminate odors from ALL sources. This product will neutralize odors caused by body fluids, fire, smoke (without ozoning first!), animal odors, etc, when used with **Chemaster** laundry formulas. **Cross - Fire!** can also be used on all washable hard surfaces and added to the cleaning solution to be used as a carpet deodorizer. 1, 2, 3, 4, 5

Leather Luxe* A leather and suede detergent with a unique blend of biodegradable oils, conditioners, and surfactants. When used in conjunction with **Wet-Clean, Plus!**, the linings of the garments are left with a beautiful smooth finish and a natural sheen. 1, 2, 3, 4, 5

Dry Products

Dry Detergents :

IA : A moderate pH laundry detergent for use in medium to high wash temperatures. IA contains a non-phosphate water softening compound to help reduce water hardness. It is built with mild alkalis and water soluble, biodegradable degreasing agents. 50 lb. pail

IB : A highly alkaline built, free-flowing laundry detergent. 50 lb. pail

IC : The same product as IB, plus water softening compounds. 50 lb. pail

One-Shot Special : A moderately priced, lightly alkaline built laundry detergent for removal of oily based soils and for general cleaning. 40 lb. box

One-Shot Plus : The same product as One-Shot Special, with moderate to high temperature enzymes for superior removal of protein and starch based soils. 50 lb. pail

One-Shot Plus with Bleach : The same product as One-Shot Plus with a color-safe oxygen bleach. 50 lb. pail

One-Shot Ultra! : A highly concentrated, moderate to high wash temperature version of One-Shot Plus. 50 lb. pail

One-Shot Ultra! with Bleach : The same product as One-Shot Ultra! with a color-safe oxygen bleach. 50 lb. pail

Dry Bleaches :

IIA : A color-safe oxygen bleach. 50 lb. pail

IIB : A concentrated chlorine bleach and Step 3 of the **ReNew** Linen Rescue System. 50 lb. pail

Dry Sours:

IIIA : A rust controlling sour. and Step 2 of the **ReNew** Linen Rescue System. 50 lb. pail

IIIB : A sour with bluing and brighteners. 50 lb. pail

IIIC : A buffered sour (pH 6.5) for shirt laundries. 50 lb. pail

Specialty Dry Products:

IVA : A non-phosphate water softening compound. 50 lb. pail

IVB : A concentrated Anti-Chlor; it will extend the usable life of linen bleached with chlorine (oxidizing) bleaches. 50 lb. pail

IVC : An orthosilicate alkali for building detergents and “breaking” greasy and organic based soils in hot water and Step 1 of the **ReNew** Linen Rescue System. 50 lb. pail

IVD : A concentrated static controlling fabric softener. 100 lb. drum

The ReNew Linen Rescue System: A three part bath, room, and table linen restoration system that will restore 50% or more of the white stained linens that were headed for disposal. The **ReNew** system is composed of **IIIA**, **IVC**, and **IIB** and is used in washers that have been programmed to use the system.
